

Plant Operators

Daracon Group has a history of quality and strong performance across broad range of construction activities. Our fleet of plant consists of over 200 modern, fit for purpose machines that are maintained to the highest standard. Our fleet is one of the largest in Australia and has an excellent reputation for performance, reliability and is accredited for use with major clients such as the RTA, mine sites and property development specialists.

As a result of this strong performance and growth, we currently have the need for a number of experienced operators to join the team across our Newcastle and Hunter Valley Operations. We are seeking highly competent operators with experience in one or more of the following:

- Grader
- Backhoe
- Excavator
- Dozer
- Scraper
- Grader
- Articulated Dump truck
