
POLICY FOR

QUALITY MANAGEMENT

Our Purpose

Daracon is an integrated business that delivers products and services to our client's requirements without compromise to quality, safety or the environment. We each contribute our specialist knowledge, skills and experience to add value to projects and promote Daracon's reputation for relationship contracting.

Our Business Management System which is based on International Standard ISO 9001 underpins our endeavours and provides a framework for each individual and business unit to continually assess its performance.

Our Business

Daracon offers our clients a "One Stop Shop" solution to their civil construction challenges especially in the areas of:

- Civil engineering
- Property development and landscaping
- Mining infrastructure
- Railway works
- Quarry operations and construction material
- Site remediation and de-contamination
- Heavy transport and haulage
- Supply of earthmoving plant
- Administrative and contract control

Each Daracon business unit reviews its performance against measurable targets for client satisfaction, learning and innovation, internal business processes and financial capability. Specific targets have been set for each business that reflects its individual processes and values.

Striving for Excellence

We are committed to continuous improvement and training of our personnel to instill in each one a sincere attitude for quality, safety and environmental compliance.

Our quest for excellence is built on the key elements of:

- Partnership with customers
- Learning and skills development
- Communication
- Integrity
