

Name MCDONALD'S ROAD UPGRADE

Client Vintage Developments

Project Description

- To reconstruct approximately 1.8km of McDonalds Road including the installation of new drainage lines and SO disk drain.
- Three loc-a-bloc retaining walls constructed to fit the new road corridor between the existing property boundary lines.

Site Location Pokolbin

Value \$1.2 million

Duration 22 weeks

Referees Ben Johnson - 0438 986561

Key Personnel Project Manager – Luke Robinson
Supervisor – Graham Thompson

Significant Achievements

- Maintain traffic flow through the site for the majority of construction. Road only closed during the construction of the two retaining walls adjacent to Bimbadgen Estate
- Liaison with the local winemaking community to minimise the impact on the harvesting and transportation of grapes
- Liaison with The Vintage and Bimbadgen Estate to minimise the impact on scheduled events such as the "Day on the Green"

Extent of Involvement & Role of Proponent (S) Daracon was the principle contractor on this project.
