

Name BENGALLA LINK ROAD
Client Coal & Allied

Project Description The work involves 2 stages of road works:

- **Stage 1:** Rehabilitation of the existing Bengalla Link Road (approx. 5.6km) and upgrade works to the existing intersection at Denman Road
- **Stage 2:** 3.8km extension of Bengalla Link Road (2 lanes), including three intersections and four tie-ins

Site Location Bengalla
Value \$5.7 million
Duration 5 Months + Various extensions of time for additional works (Dec-2008 – May-2009)
Referees Mr. Rod Scholes - 0428 683367
Key Personnel Project Manager – Richard Baker
Supervisor – Stan Major

Significant Achievements

- 3.8km of new road through existing pasture land
- Rehabilitation of existing road despite issues with original design. Close consultation with client was undertaken to gain positive result
- Mining safety standards maintained on civil site
- Excellent relationship with client
- Various additional works completed as identified by client.
- Complex traffic control undertaken on intersections in conjunction with Boral and Council
- Worked closely with Muswellbrook Shire Council as ultimate road owner

Extent of Involvement & Role of Proponent (S)

Daracon was the principle contractor on this project.
