Referees

Greg Ives 02 8907 9000 or 0419 244 292

Key Personnel

Project Manager – Paul Thompson
Supervisor – Wayne Spinks

Significant Achievements

- The site is surrounded by the Parramatta River, which required all works to be completed with protection of run off and pollution, which was successful
- Completing the project within the time constraints required by the client
- Successful construction management of remediated areas along the foreshore
- Recognition from the client for our efforts by awarding more work on the project

Extent of Involvement & Role of Proponent (S)

Daracon was the principle contractor for this project completing all earthworks. CLM was engaged to complete the sewer and water works.
