

Name ROPES CROSSING (FORMER ADI SITE)
Client Delfin Lend Lease

Project Description

- Construction of a multi stage subdivision including roads, drainage, paths and services
- Looking out for unexploded ordnance was a constant activity

Site Location St Mary's

Value \$11 million

Duration Dec 2004 to April 2006

Referees Laze Kelepurovski 02 9673 8800

Key Personnel Project Manager – Peter Neville
Supervisor – Wayne Spinks

Significant Achievements

- The project had to meet tight timeframes set by Delfin Lend Lease who programmed builders and other contractors to follow Daracon
- The work involved roads, trunk drainage, public utility services as well as local drainage, concrete structures and retaining walls
- Due to the variety of concurrent projects on the site there were complex interactions between the various contractors that required sensitive management and effective communication procedures
- Daracon management, to ensure that work continued without incident, strictly enforced safety and environmental controls

Extent of Involvement & Role of Proponent (S)

Daracon was the principle contractor on this project.
